## THE ROBOT HAT

El método de inglés **Mr. Chat The Robot Hat** incorpora una novedosa y dinámica metodología que combina la adquisición natural del lenguaje con el aprendizaje basado en tareas y competencias. Estas son sus claves fundamentales:

- **Interdisciplinar:** integrado con el método Retos de Educación Infantil.
- **Flexible:** adaptable a diferentes estilos y necesidades de aprendizaje del alumnado.
- **Motivante:** aprendizaje basado en tareas (TBL), respuesta física total (TPR) y actividades plásticas.
- **Socializador:** promueve valores y destrezas para el desarrollo psicosocial.
- **Participativo:** anima a pensar, a compartir ideas y a participar activamente en el aprendizaje.

### CUADERNOS PARA EL ALUMNADO

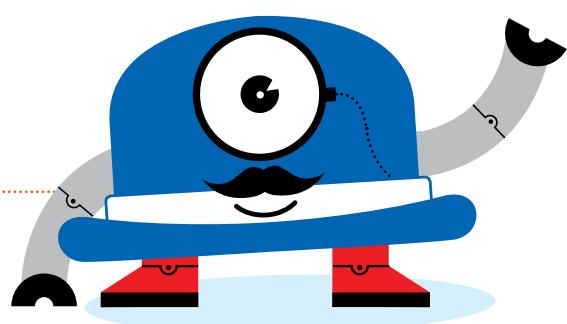

El método presenta **3 cuadernos** con pegatinas, troqueles, un pasaporte de investigación y un portfolio.

## Cómo son los cuadernos

Cada una de las 6 unidades en las que se organizan los cuadernos se divide en las siguientes secciones:

El método ofrece una rigurosa y completa variedad de recursos para desarrollar las destrezas auditivas: **chants, songs, phonics, stories y extra resources**, disponibles en el CD y en el libro digital para el profesorado. Las familias disponen de las canciones y las historietas en [www.anayaeducacion.es](http://www.anayaeducacion.es), en la web del alumnado y de la familia.

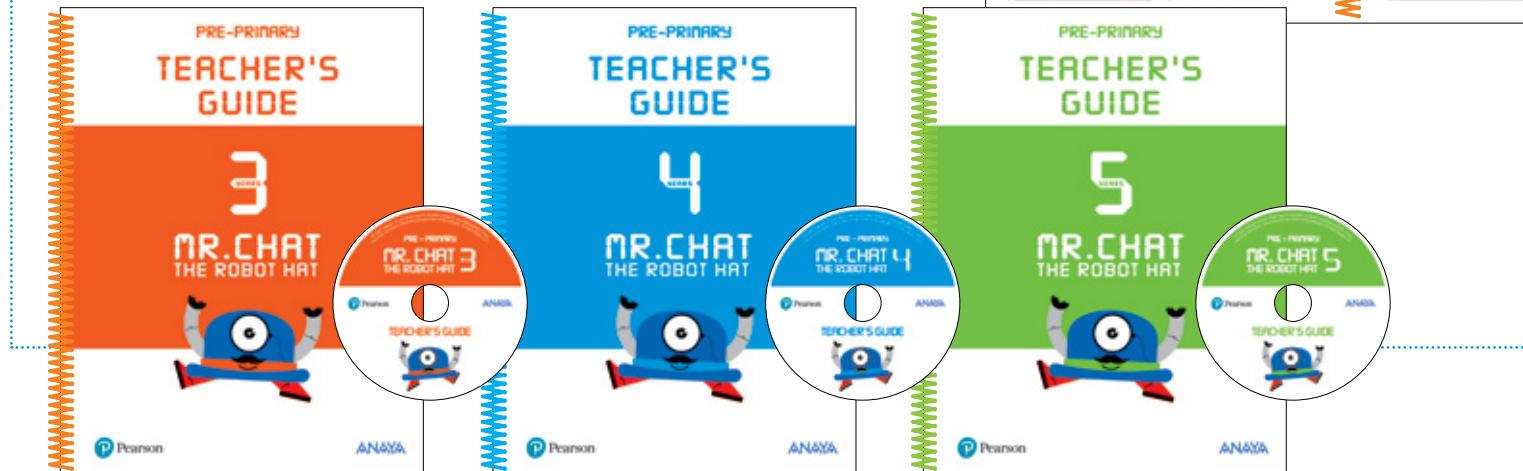

## PROPUESTAS DIDÁCTICAS

Una propuesta didáctica bilingüe para cada nivel, acompañada de un disco con todos los recursos sonoros, además de ofrecer:

- Rutinas al inicio y al final de clase.
- Actividades de calentamiento.
- Actividades de ampliación.
- Recomendaciones y consejos para el alumnado que necesita más apoyo.
- Sugerencias para los auxiliares de conversación.
- Palabras clave propuestas para el buscador.

## MATERIAL DE AULA
